Savitribai Phule Pune University

T.Y.B.C.A.

Semester – V

University Practical Examination MJ-303 JPP Computer Laboratory Based Java Programming

2024 Pattern as per NEP-2020

Academic Year: 2026-2027

Savitribai Phule Pune University
T.Y.B.C.A. (Management)Semester – V (NEP 2024 Pattern)
University Practical Examination Lab Course: MJ-303 JPP
Computer Laboratory Based Java Programming

Time: - 1.5Hours **Marks: -35**

Q1.Write a Java program to demonstrate the use of the `LinkedList` class by adding, removing and displaying elements. [15 Marks]

Q2. Write a Java program to create an interface for an Employee Management System to calculate the salary of different types of employees. [10 Marks]

Q3. Write a Java program to demonstrate the use of `new`, `this`, and `static` keywords and the `finalize()` method. [10 Marks]

Savitribai Phule Pune University
T.Y.B.C.A. (Management)Semester – V (NEP 2024 Pattern)
University Practical Examination Lab Course: MJ-303 JPP
Computer Laboratory Based Java Programming

Time: - 1.5Hours **Marks: -35**

Q1.Write a Java program to create a Student Registration Form using Swing components such as `JLabel`, `JTextField`, `JRadioButton`, `JComboBox`, `JCheckBox`, `JTextArea`, and `JButton`.

[15 Marks]

Q2. Write a Java program to create a user-defined package and demonstrate the use of public, private, protected and default access specifiers. [10 Marks]

Q3 Write a Java program to demonstrate inheritance and polymorphism using `super` and `final` keywords. [10 Marks]

Savitribai Phule Pune University
T.Y.B.C.A. (Management)Semester – V (NEP 2024 Pattern)
University Practical Examination Lab Course: MJ-303 JPP
Computer Laboratory Based Java Programming

Time: - 1.5Hours **Marks: -35**

Q1. Write a Java program to demonstrate inter-thread communication using `wait()`, `notify()` and `notifyAll()` methods. [15 Marks]

Q2. Write a Java program to demonstrate the use of `TreeMap` to store student roll numbers and names and display them in sorted order of keys. [10 Marks]

Q3. Write a Java program to demonstrate the use of an abstract class, interface, and interface inheritance in Java. [10 Marks]

Savitribai Phule Pune University
T.Y.B.C.A. (Management)Semester – V (NEP 2024 Pattern)
University Practical Examination Lab Course: MJ-303 JPP
Computer Laboratory Based Java Programming

Time: - 1.5Hours **Marks: -35**

Q1. Write a Java program to develop a simple Student Management System using a collection. The system should store Roll No, Name and Course of students and display all student records. [15 Marks]

Q2. Write a Java program to demonstrate multithreading using the `Thread` class and synchronization. [10 Marks]

Q3. Write a Java program to demonstrate inheritance and polymorphism using `super` and `final` keywords. [10 Marks]

Savitribai Phule Pune University
T.Y.B.C.A. (Management)Semester – V (NEP 2024 Pattern)
University Practical Examination Lab Course: MJ-303 JPP
Computer Laboratory Based Java Programming

Time: - 1.5Hours **Marks: -35**

Q1.Write a Java program using Swing and JDBC to create a GUI for entering student details and insert the student record into a MySQL database.

[15 Marks]

Q2. Write a Java program to create a user-defined package and demonstrate the use of public, private, protected and default access specifiers.

[10 Marks]

Q3. Write a Java program to demonstrate the use of an abstract class, interface, and interface inheritance in Java. [10 Marks]
